**Attachments:** Digital Project Data - Publication.docx

Hi Section 22

Thanks for the call this afternoon to let me know that the Minister hasn't cleared the QiW responses for tabling today.

As mentioned, we've updated the attached version of the Digital Project Data publication to include a revision from ACMA. On page 6, the third item listed on this page for ACMA's Fighting Scams – SMS Sender ID registry, the summary has been updated as per the red text below. This update is simply a change of the example used, from Linkt to CBA, as the product is not currently applicable to Linkt.

*This project is enabling ACMA to develop, operate and maintain an SMS ID registry. This will assist in preventing scammers from spoofing industry or government brand names (such as ~~Linkt~~ CBA or myGov) in message headers.*

I'll wait to hear from you tomorrow regarding tabling.

Many thanks
