

QIW Data Release - Agency Guidance

Data Compilation | v 1.0 | 8 January 2024

What you need to do

On 6 December, the Hon Paul Fletcher MP tabled questions in writing (QIW) to the Minister representing the Minister for Finance. These questions which are available on the Parliament of Australia website seek specific information relating to digital and ICT projects being delivered across the Australian Government which are subject to central oversight by the Digital Transformation Agency under the Digital and ICT Investment Oversight Framework.

The DTA is coordinating a response to these QIW. This spreadsheet contains data on your agency's projects which the DTA holds and which comes within scope of the QIW. In the spreadsheet, you are asked to:

- (1) Clarify or update the information held by the DTA to ensure an accurate and helpful response is provided in response to the questions.
- (2) Identify where your agency intends to claim public interest immunity for the production of any of the identified information on the grounds that public disclosure would be prejudicial to the public interest.

IMPORTANT INFORMATION

Your agency's response using this Excel worksheet template must be received by the DTA via an email to portfolio.assurance@dta.gov.au (accredited to hold information up to PROTECTED) by 22 January 2024.

For each data element, your agency must:

- (1) Provide any updates to the data held by the DTA.
- (2) Identify where your agency would seek to claim public interest immunity and, where you are seeking to claim this immunity, provide an explanation to include in advice to relevant Ministers.

Where should I go if I have questions?

[A FAQ document has been loaded on Gov Teams and is available by clicking on this cell. This document will be updated with questions and answers as they are received and processed by the team.](#)

Further Information

For further information please contact the team coordinating this release: portfolio.assurance@dta.gov.au.
